**GENERAL DESCRIPTION:** Located east of Quinault Lake in the southwest corner of the Olympic National Forest in Grays Harbor County. This Wilderness includes very steep terrain ranging in elevation from 300 feet in Quinault Valley to 4,509 feet along the eastern boundary.

The lower slopes of the Wilderness are heavily forested with dense stands of conifers. The Colonel Bob Wilderness is in the temperate rain forest. Annual rainfall of 150 inches (mostly in the winter months) and summer fog create a dense forest canopy of Sitka spruce, western hemlock, and Douglas-fir with a lush under story of ferns, flowers, moss and lichens.

In the higher elevations, subalpine and alpine vegetation, green meadows, rock outcrops and rugged peaks dominate the wilderness landscape.

Views of Quinault Lake are spectacular.
